ABOUT ME

AI Engineer with hands-on experience in developing Generative AI applications, Retrieval-Augmented Generation (RAG) systems, and deep learning models using Python and PyTorch. Experienced in building offline LLM solutions, semantic search pipelines, and vector database integration. Strong foundation in machine learning, natural language processing, and scalable AI system design.

EDUCATION

Bachelor of Technology

Nov 2022 - Aug 2026

Final Year (Pursuing)

Artificial Intelligence & Data Science

K. K. Wagh Institute of Engineering Education & Research,

Nashik, Maharashtra, India.

CGPA: 7.12

EXPERIENCE

AI Intern

Jan 2026 - Present

Hindustan Aeronautics Limited, Nashik

Responsible for developing a domain-specific, completely **offline RAG system** integrated with an offline LLM on a standalone system. Responsible for developing a user-friendly UI to provide a great user experience.

Technical Skills: Python, LLMs, RAG, Vector Database, Prompt Engineering, Linux, Data Processing

UI/UX Design Intern

Feb 2025 - Jun 2025

Ceeras IT Services (Remote)

Crafted responsive and user-focused web and mobile interfaces for **2 projects**, collaborated with cross-functional teams, and contributed to improving the overall user experience.

Technical Skills: UI/UX Design, Wireframing, Figma, Adobe XD

PROJECTS

COTS | CNN Based Content Search & Recommendation System

- Built a multimodal AI system combining thumbnail analysis and metadata for content recommendation using the **YouTube-8M dataset**.
- Trained a CNN using PyTorch, achieving **84%** accuracy.

CultivAI (Smart Farming Tool)

- A farmer-centric app leveraging AI to enhance agricultural productivity. It provides real-time insights on weather, soil health, and crop management, enabling precision farming.
- Integrated machine learning models and IoT-based sensors to offer tailored recommendations for higher yields.

Sentiment Analyzer for social media platforms

- Developed a machine-learning-based platform using Python, Streamlit, and Docker to analyze and visualize user sentiments from social media comments, achieving **89%** accuracy.
- Deployed an interactive web app for real-time sentiment insights.

KEY ACHIEVEMENTS

- Received **Government of India Copyright** registration for Project **COTS**.
- Reliance Foundation Undergraduate Scholar:**
Awarded a scholarship worth INR 2,00,000 for academic excellence.
- Vice-President | MIBCS KKWIEER**
- 2nd place at Inspire Maharashtra 2024**

CERTIFICATION

AWS Certified Cloud Practitioner Training (Udemy)

- Skills Gained:** Cloud Computing, Elastic Cloud Compute, Scalable Storage, AWS Services.
